VIRTUAL CONFERENCE AND EXPO FAQs – ATTENDEES

I'm already registered to attend. Is my registration automatically transferred to the virtual conference?

Yes, your current registration will automatically transfer to the virtual conference experience. Details will be provided in the coming weeks. If you have questions about registration, please contact meetings@utc.org. We will respond to you as quickly as we are able.

What if I'm unable to attend the virtual event?

We understand that there may be conflicts. If you are unable to attend UTC Telecom & Technology 2020 virtually, you can transfer your registration to another employee in your company. Please send any substitution requests to meetings@utc.org.

Will the agenda be the same?

Yes and No, as the virtual format will allow for new options to present. Our intention is to present the same program originally developed for this year's UTC virtual conference. If there are any changes, they will be listed on the event website at utctelecom.org. Click here to view the agenda and look for updates in the coming weeks.

What are the registration fees to attend the Virtual Conference and EXPO?

Registration rates can be found by [clicking here](#).

What are the dates of the Virtual Conference and EXPO?

Summits, Training, and 101 Classes will be held the week of August 17. The education tracks that usually occur on Wednesday and Thursday at a live conference will be held during the weeks of August 24 and August 31.

How do I register for the Virtual Conference and EXPO?

[Click here to register for the event now.](#)

- This link is for utility members and non-exhibiting vendors only
- Speakers - Please do not register for the event on our website; we process speaker registrations separately. For assistance with registration, please contact Christopher Brent via email at christopher.brent@utc.org.

- Sponsors & Exhibitors - Please do not register for the event on our website; we process these registrations separately. For assistance with registration, please contact Kelly Moran via email at kelly.moran@utc.org.

What types of presentations will be featured in the virtual meeting?

The program has not been altered significantly. You will still receive quality content with eight tracks: Wireless/Spectrum, Security, IT/OT, Utility of the Future, Infrastructure/Utilisite, Broadband, Emerging Technology, and Policy. We will have the main keynotes, pre-conference training, summits, and 101 classes. All sessions will be on-demand so that you have every opportunity to take part in the great content.

Will there be concurrent sessions during the virtual meeting?

Yes, this program will have concurrent sessions. With our virtual program, you can access these sessions on-demand **for six months** following the event, so you can be sure not to miss any of the excellent session content.

Will Professional Development Hours (PDHs) be available?

Yes, with 12 hours of summits and 48 hours of education sessions, your conference registration entitles you to up to 60 hours of education credits.

What are the time zones for the sessions?

The agenda times are listed in Eastern Daylight Time.

Can I share my virtual conference login information with other members of my team?

No. For every paid registration to attend virtually, only one device (computer, laptop, tablet, phone) will be allowed to enter the virtual conference. The sessions viewed, the questions asked, and the polling conducted within that single login session are all tied to the account of the individual who purchased the virtual event.
